

Resume: Yetsedaw Emagne Bekele

emagneyetsa15@gmail.com +251921773888/ +251911555027

I am a highly motivated and results-oriented professional with a PhD in Economics, Management, and Statistics, and over 14 years of experience in research, data analysis, and consultancy services. Demonstrated expertise in conducting rigorous qualitative and quantitative research on topics such as public administration, government effectiveness, bureaucratic performance in developing countries, financial sector development, globalization, economic growth, and poverty reduction. Proficient in data collection, analysis, and management using various software tools, including SurveyCTO, Python, MATLAB (Dynare), R, SPSS, EViews, GRETL, and Stata.

Summary of experience: Programme evaluation and research professional with extensive experience designing and implementing mixed-method evaluation frameworks across development, governance, social protection, financial inclusion, and state capacity programmes. Proven expertise in developing evaluation ToRs, theories of change, logframes, and results frameworks; coordinating large-scale quantitative and qualitative data collection (surveys, KIIs, FGDs); ensuring rigorous data quality assurance, ethical compliance, and data protection; and translating evaluation evidence into actionable learning for programme improvement and adaptive management. Strong track record working with, the World Bank, bilateral donors, government institutions, civil society organizations, and international research partners.

Education

Other experience

World Bank Living Standards Measurement Study (LSMS) unit, Survey specialist	Nov 2024-2025
Supported the World Bank's high-frequency price monitoring initiative in Ethiopia/Addis Ababa, which was undertaken in 12 markets— developed vendor rosters for key commodities and coordinated weekly market data collection. Ensure regular data updates and validation of pricing information for high-priority goods. Maintained weekly communication with vendors to understand the price dynamics of each commodity, while providing timely data reporting and facilitating regular communications with the team.	
World Bank Group	Jan_2026_ongoing
<i>I am currently working on coffee and soybean value chain analyses with the World Bank Group, focusing on domestic price formation (coffee), institutional market structures, and actor mapping across the value chain. The work includes analysis of logistics systems, storage capacity, and grading reforms, as well as sector characteristics such as employment, number of farmers and cooperatives, and seasonal production patterns. The objective is to generate policy-relevant insights to improve competitiveness, market efficiency, and value addition</i>	
Addis Chamber of Commerce & Sectoral Associations	2023-2024
Lead Researcher – Dried Papaya Value Chain (GIZ-financed) Conducted a comprehensive value chain analysis of dried papaya, covering production, aggregation, processing capacity, export potential, and post-harvest losses. Led stakeholder consultations with farmers, processors, exporters, the Ethiopian Horticulture Producer Exporters Association, the Ministry of Agriculture, and private farms to identify investment constraints and quality-standards gaps. Delivered policy and market recommendations to enhance competitiveness and private-sector participation. Findings were published in the Addis Chamber Journal of Trade & Business and used as an evidence base for industry actors.	
UNDP & Ethiopian Coffee and Tea Authority	June 2025–February 2026
Consultant Value Chain & Traceability Analyst – EU Deforestation Regulation (EUDR) Served as part of the national task team preparing Ethiopia's coffee sector for EU deforestation-free requirements. Supply chain diagnostics are conducted, including farm mapping, geolocation verification, risk assessment, and compliance with EUDR traceability standards. Supported the development of national traceability frameworks, farmer registration systems, and digital monitoring tools. Worked closely with cooperatives, processors, exporters, and international partners to facilitate Ethiopia's alignment with EU market	

regulations.

World Bank, Social Protection & Jobs (SPJ) Global Practice unit (HAWS2), Feb 2025–May 2025
Research Assistant

Engaged in the implementation of a multi-year impact evaluation on the gender-based transfer component of Ethiopia's PSNP. Assisted in questionnaire programming, supervision of data collection, and field team coordination. Led daily high-frequency checks and ensured data quality through automated Stata scripts and manual review. Consolidated and cleaned a large primary dataset for analysis, including manual merging and matching. I participated in designing and programming survey instruments and monitoring protocols. Attended meetings with PI teams and field staff and contributed to statistical code reviews and replication efforts. Responsible for real-time data quality assurance, monitoring enumerator performance, identifying inconsistencies to improve data reliability, and coordinating closely with field teams to provide timely feedback and corrections.

World Bank, Development Impact (DIME), Nov 2022–Jul 2024
Consultant Mar 2021–May 2021
Coordinating the field experiment/Survey with the Ethiopian Management Institute and the Ethiopian Civil Service University for the IGC-funded project. Oct 2019–Jun 2020

Oxford Policy Management (OPM), Building Resilience Ethiopia Project, Aug 2020–Oct 2020
Economist

Supported strategic document preparation and cost estimation for the leadership framework based on Ethiopian Public Health Institute standards. Assisted the lead consultant in finalizing the PHEM strategic document and first-year operational plan. Coordinated discussions with FMOH, EPHI, and other government counterparts to ensure consistency and adherence to best practices. Helped organize the validation workshop and presented the costing approach for budget estimates. Contributed to the delivery of project outputs and service documentation.

Dep. for Internat'l Development (DFID) / Ethiopian Policy Research Institute, July 2020–Aug 2020
Research Assistant

Conduct an extensive review of the theoretical and empirical literature on various issues including political violence, political preferences, social mobility, and economic development. Take charge of overall data management and preliminary analysis, conduct qualitative field research in the form of key informant interviews and focus group discussions, oversee the implementation of survey data collection, assist the research team in writing up the final report and policy briefs, and assist the research team in organizing dissemination activities

UNCTAD – National Green Export Review (NGER) of Ethiopia
National Consultant – Sesame & Leather Value Chains

2016–2017

Led analytical assessments of sesame and leather value chains, evaluating production systems, trade flows, export competitiveness, green standards, and value-added opportunities. Identified sustainability challenges, certification gaps, and market diversification pathways. Provided policy guidance aimed at improving environmental performance, boosting export quality, and strengthening institutional coordination across government and private-sector stakeholders.

Ethiopian Policy Research Institute/ Ethiopian Economics Association,

Sep 2017–Jun 2019

Junior Research Fellow

Compiled and analysis economic data to prepare reports and forecast the future trends of the Ethiopian Economy, prepare quarterly reports on the Macroeconomic Performance of the Ethiopian Economy in general and specifically on foreign trade issues such as export and import, devise methods and procedures for collecting and processing data using various econometric and sampling techniques, formulate recommendations on policies or plans that aim to solve economic problems, and engage in dissemination of research outputs and other statistical information on Ethiopian Economy

Ministry of Trade of Ethiopia,

Apr 2010–Aug 2016

Export Research and Promotion Expert

Advised top producers, distributors, and exporters on market access, business opportunities, pricing shocks, and international competition. Supported national and international trade exhibitions, contributed to trade policy discussions, and disseminated trade-related information. Led initiatives to reduce trade imbalances, enhance export competitiveness, and mitigate export barriers. Team leads for trade regulatory assessments in Amhara and Tigray, identifying supply-side challenges in key commodities like sugar and palm oil.
